

Resolution No. 602

VA PHARMACEUTICAL CO-PAYMENTS

WHEREAS, veterans, other than those with a service-connected disability rating of 50 percent or greater, those who are receiving medications for their service-connected conditions or those whose incomes fall below the nonservice-connected pension threshold, must pay a co-payment for each 30-day supply of medications obtained through the Department of Veterans Affairs (VA); and

WHEREAS, there have been repeated proposals to change VA pharmaceutical co-payments, placing an undue hardship on many veterans; and

WHEREAS, the increase in costs of the benefit would likely place an undue burden on veterans, limit access to earned benefits, and serve to inequitably balance the federal budget on the backs of veterans; and

WHEREAS, pharmaceuticals are part of the VA's standard health benefits package and must be provided to all eligible veterans; and

WHEREAS, VA is required by current law to charge veterans for life saving preventive medicines which are cost-free under private sector insurance and other public health care options; now, therefore

BE IT RESOLVED, by the Veterans of Foreign Wars of the United States, that we oppose increases in VA pharmaceutical co-payments; and

BE IT FURTHER RESOLVED, that Congress must exempt preventive medicines from VA pharmaceutical co-payment requirements.

Submitted by Commander-in-Chief
